

## 2020 BRUZZI VIDAL BLANC

This wine not only comes from the first Vidal Blanc planted in Arizona, but also the first wine-grapes to come from high elevation Gila County. It's exciting to see viticultural efforts charting new territory and revealing amazing new possibilities for Arizona. The Bruzzi Vineyard, farmed by Aldo and James Bruzzi, is located in Young, Arizona. They could not have picked a better grape for their site. Vidal, bred from Ugni Blanc (the main grape used in Cognac) and the cold hardy Rayon d'Or, emerges late and ripens quickly. It can survive severe winters and if it gets frosted, puts out a good second crop. One amongst many Vidals we made from this vintage, we chose to bottle this one dry (no sugar). This wine is fresh and electric, with zingy citrus, under ripe stone fruits and a mouth-watering tanginess.

Wine Name:	<b>Bruzzi Vidal Blanc</b>
Vintage:	2020
Release Date:	
Bottle Size:	750mL
Cases Produced:	50 Cases, 9 Bottles
Varietals:	100% Vidal Blanc
