

2020 HOUSE MOUNTAIN SYRAH CLONE 471 BARREL FERMENT

House Mountain Vineyard can be found about one mile upstream from our Estate. A collaboration between Page Springs and the Petznick family of the Dancing Apache Ranch, this nine-acre site is planted to several varieties, with the biggest block being Syrah clones 471 and 525. This site is higher in elevation than our Estate and sits just above the cold air drainage line in our valley. The grapes are receiving more heat and these hill-slopes see more constant wind and thus have less threat of fungal issues. This amazing combination of barrel fermentation and Arizona White Oak ageing have created an amazingly complex and supple wine. This is what Syrah is all about!
