### AWARDS:

- San Francisco World Spirits Competition- Silver
- American Craft Spirits Assoc.- Bronze
- American Distilling Institute- Bronze
- Best Gin- Drink Magazine

### DESCRIPTION:

Vitae Spirits' Modern Gin is a dry gin that has a distinct but not overpowering juniper berry aroma that allows the complexity of the other seventeen botanicals to shine through; the true definition of a modern gin. Our gin is redistilled in small batches, using our in-house fermented and distilled American cane spirits as a base, with a hybrid technique applying both maceration and vapor infusion to extract aromatic oils from the botanicals. This technique allows our gin to hit both the high notes and low notes in a symphony directed by the individual character of each of our botanicals.

### TASTING NOTES & USES:

This Gin is so crisp, clean, and focused that it needs little else than a good stir with ice, but makes a fantastic Gin & Tonic, Negroni, Tom Collins, or Gin Fizz among other cocktails
